

Lesson Handout

Divination Interview Questions

You can use the following questions to interview the divination form that you are considering for your daily divination. Focus on one or two of the questions and then ask them before you pull your cards, cast your runes, or however the divination works.

- What are your feelings about me?
- How best could we work together?
- What are your strengths?
- What are your weaknesses?
- If we work together, what will be the outcome?

Daily Pull Questions

- What do I need to know for today?
- What challenges will I face today?
- What is the one tool I need for today?
- Where should my focus be today?
- What is today's lesson?

Remember: Don't ask yes/no questions of your divination tool. Open-ended questions will give you better results as the universe is not keen on direct questions.
